PROFILE

As a data science intern, I am passionate about utilizing my technical skills and analytical mindset to extract insights and drive value from data. I have experience in Python programming, data visualization, statistical analysis, and machine learning techniques. I also demonstrated proficiency in data cleaning and preprocessing, as well as experience with SQL databases. As an enthusiastic learner, I am eager to continue expanding my skill set and contributing to meaningful data projects.

SKILLS

- Python
- Data Analysis
- Machine Learning
- Statistical Analysis
- Visualization
- SQL
- Problem Solving
- Communication

PROJECTS

HAND SIGN LANGUAGE DETECTION

University Project

[Github Link](#)

Hand sign detection project in Python is a computer vision project that detects and recognizes hand signs through captured images or real-time video stream. The project can be used for various applications such as sign language translation, controlling devices through hand gestures, and security purposes.

WEB DEVELOPMENT (MERN STACK)

IN PROGRESS

[Github Link](#)

MERN Stack Project- Authentication Backend Development Which Performs

- User Registration
- User Login
- Database(Mongo DB)

EDUCATION

SECONDARY SCHOOL

GNMSS School Doraha
2018 - 2020

BACHELOR OF TECHNOLOGY

CT University
2021-Present

CERTIFICATIONS

[IBM Cognos Analytics V11.1.x Reporting Essentials](#)

[Data Visualization Using Python](#)

[Python for Data Science](#)

[Machine Learning with Python - Level 1](#)

[Data Engineering Foundations](#)
